

ABSTRACT OF THE DISCLOSURE

ENS. Q47

A guide wire having a non-metallic, non-woven core wire is disclosed.

Monofilar, polymeric fibers of multifilar helically-wound non-metallic fibers
5 are preferred core wire materials. The guide wire optionally includes further
coatings and other materials on the core wire. In one embodiment, a non-
metallic distal coil wire is disclosed. The guide wire of this invention is
particularly useable for magnetic resonance imaging applications.
